Seminar Invitation

2012

BS EN 62305

**An ESSENTIAL one day
Seminar for anyone**

Involved in

**LIGHTNING PROTECTION
SURGE PROTECTION**

Overview

BSEN 62305 is the Lightning Protection Standard now in use in the UK. On the 31st August 2008 all conflicting standards were withdrawn.

The BSEN 62305 Lightning Protection Standard has far reaching implications effecting the design, installation and testing of a Lightning Protection System.

These seminars are designed to help you and your company come to terms with both practical and theoretical implementation of BSEN 62305, in the shortest possible time.

Available to the likes of Consultants, Designers, Engineers, Electrical Contractors, Lightning Protection Installers and many more.....

About DEHN (UK) Ltd

DEHN (UK) Ltd is the UK subsidiary of DEHN + SÖHNE. The DEHN Group celebrates its 100 years in 2010, during this time it has become a worldwide leader in the field of Lightning and Surge protection.

A team of highly technical personnel are employed to help customers make the correct choice for Lightning and Surge protection. DEHN (UK) Ltd has been involved in many prestigious projects over the years.

Seminar Objectives

To give a clear, concise understanding of all sections of the new Lightning Protection Standard BSEN 62305. An in-depth look at its practical application, implications and differences from the old standard BS 6651.

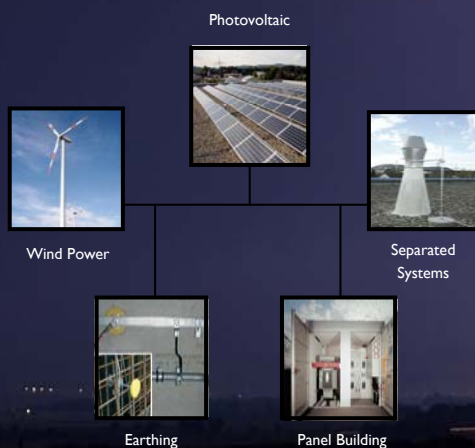

Seminar Content

Welcome

Introduction to BSEN 62305
